

REMARKS

The objection to the specification is attended to above.

The objection to the drawing for not showing the external metallic cylinder 4, the barrel 1, and internal metallic cylinder 5 is traversed on the basis of the indicated reference characters of the specification and their corresponding showing in the drawing.

The allowability of claims 1-10 upon the courteously suggested corrections of claim 1, which are made above, is acknowledged appreciatively. Reconsideration and allowance are, therefore, requested.

Respectfully submitted,

William R. Evans
